

8 November 2020

Dear Parent(s)/Carer(s):

Following on from the confirmed case on Friday 6 November, we have become aware of a further four students in year 11 who have now tested positive for COVID-19. These students spent extended time together over the half-term break - we have no evidence of transmission on the school site or any other transmission from these students to others since the gathering during the half-term break.

Nevertheless, due to the 'cluster' of cases, we are following advice by asking any students who were in the same class as any of these students (on Monday 2 and/or Tuesday 3 November, when they were last in school) to self-isolate.

These students have been informed that they need to stay at home for 14 days - counting on from their last potential contact on Tuesday 3 November (or, in some cases, on Monday 2 November). They will return to school on Wednesday 18 November (or, in some cases, on Tuesday 17 November). There are no members of staff who will also need to self-isolate.

Household members of these students do not need to self-isolate, unless they begin to develop symptoms themselves. The most common symptoms of coronavirus (COVID-19) are the recent onset of:

- a new continuous cough
- a high temperature
- a loss of, or change in, your normal sense of taste or smell (anosmia)

Please also note that symptoms for children/young people can include:

- nasal congestion or runny nose
- sore throat
- shortness of breath or difficulty breathing
- diarrhea
- nausea or vomiting
- stomach ache
- tiredness
- headache
- muscle or body aches

For most people, coronavirus (COVID-19) will be a mild illness.

If you, or your child, develop symptoms, you can seek advice from the nhs.uk website: <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are concerned, or symptoms are worsening, you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

Whether they are self-isolating or not, please remember that if your son/daughter does develop symptoms, then they should get a test (which can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119) and:

- if the test is negative, remain in isolation for the rest of the 14-day period;
- if the test is positive, inform the school immediately and isolate for at least ten days from the onset of the symptoms (which could mean, for students already self-isolating) that the self-isolation period ends before, or after, the end of the 14-day period). Their household should self-isolate for at least 14 days from when they first had symptoms. All other household members who remain well, must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'.

Further information is available at:

<https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

The students who will be self-isolating will have a full programme of work and lessons managed through the use of the 'Show My Homework' platform and through Microsoft Teams. We are also adjusting the schedule for year 11 mock exams.

As we are sure you are aware, in these circumstances, it is important that any information that relates to an individual student is treated with discretion and sensitivity. Bearing this in mind, we would appreciate it if you could reinforce to your son/daughter how important it is for social media to be used responsibly.

Thank you for your continued support over this difficult time. We will, of course, continue to keep you well-informed of any developments.

Sincerely:

**Stuart Jones**  
Executive Headteacher

**Nicola Mason**  
Head of School
