

1 June 2021

Dear Parent(s)/Carer(s),

### **SCHOOL TRANSPORT**

We are now in the process of arranging transport requirements for next academic year 2021-22. There are no anticipated changes to the existing bus stops, which are detailed below.

I would be grateful if you could confirm via e-mail [transport@chaseterraceacademy.co.uk](mailto:transport@chaseterraceacademy.co.uk) if you would like to request for your child to continue to use the transport service. Please provide their name and details of which bus stop you prefer them to be collected from next academic year. We will endeavour to accommodate your request but this cannot always be guaranteed. Our school minibus will be allocated as and when the numbers are known.

We will need this information by no later than 16 June 2021 to liaise with our transport providers and finalise arrangements. Please be aware that failure to provide this information may result in your child being unable to access the transport service.

The transport providers have notified us of increased operating costs for next year. The school subsidises the home to school transport heavily and so we have had to review the costs that we charge parents/carers. The transport will increase to £460 per student (for the 2021-22 academic year) which will need to be paid via Parent Pay over ten instalments of £46 per month (September to June).

The same as this year, parents/carers will need to ensure that monthly payments are kept up to date which is monitored monthly. We ask that all parents/carers ensure the full balance for this academic year is paid by 30 June 2021 as failure to do so will result in your child's transport place being withdrawn.

I look forward to receiving details of your request and providing you with confirmation of arrangements for your child by no later than 16 July 2021.

Yours sincerely

**Selina Morgan**  
Academy Business Manager
