

COVID-19: Risk Assessment / Action Plan

- in line with national guidance that applies from 19 July '21

(Revised – 22 Aug. '21)

COVID -19: Risk Assessment / Action Plan for implementing protective measures

Introduction

On Mon. 22 Feb. '21, the Prime Minister announced details of the Government's 'roadmap out of lockdown'. As a result of the success of the vaccination programme and the public's response to the measures imposed, a view was taken that the relevant data indicated that restrictions could begin to be lifted, albeit in a staged way, with the proviso that the 'roadmap' would be subject to change, based on emerging data.

Ensuring that children returned to school for face-to-face education was identified as a top priority (Stage 1) action and it was decided that all students should return, during the week commencing 8 Mar. '21. For secondary age students, this would be done in conjunction with three initial lateral flow tests, conducted on site, followed by a programme of twice-weekly home testing (from 15 Mar., at the earliest), in addition to regular home testing for all teachers, measures that would aim to reduce the chance of the virus spreading in schools.

As the Government's vaccination programme, continues to 'roll out', there will be an increasing number of people who will have received either one or two courses of the vaccine. Schools are also asked to positively promote the Government's vaccination programme.

As the country now moves to Stage 4 of the 'roadmap', the Government's response moves away from some of the more stringent restrictions on people's lives towards advising them on how to protect themselves, and others, alongside some targeted interventions to reduce risk. The position is that, as COVID-19 becomes considered as a virus with which we learn to live, the disruption to students' learning must be reduced, particularly as the direct clinical risks to children are extremely low and every adult has now been offered a first vaccine and an opportunity for two doses by mid-September. 16-17 year olds have also now started to be offered the vaccine.

Schools are expected to continue to reduce the risk of transmission through the measures that are put in place. Whilst doing so, they are also expected to offer a broad and effective curriculum. This risk assessment has been designed to respond directly to, and incorporate securely, the Government's system of controls, as follows:

PREVENTION:

Always:

- Ensure good hygiene for everyone
- Maintain appropriate cleaning regimes
- Keep occupied spaces well ventilated
- Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19.

In specific circumstances:

- Where necessary, wear appropriate personal protective equipment (PPE)

RESPONSE TO ANY INFECTION:

Always:

- Promote, and engage with, the NHS 'Test and Trace' programme
- Follow local health protection team advice to contain any outbreak

At Chase Terrace Academy, the safety and wellbeing of students, staff and other members of the school community, are afforded the highest priority. In particular, the specific needs of more vulnerable students and staff are considered very carefully and equality impact assessments are put in place in order to protect particular groups. Since Mar. '20, the school has been undertaking assessments of risk, related to COVID-19, on a continuous basis. In a variety of different situations (lockdown, rota and full provision), we have implemented a range of rigorous and carefully conceived control measures to limit transmission. Whilst it is not possible to estimate the rate of asymptomatic infection and transmission on the school site, the evidence relating to symptomatic infection would suggest that the school's social distancing and infection control strategies have been effective, as there have been few confirmed cases, where on-site transmission seemed likely.

This risk assessment and action plan builds upon the practices that had previously been developed. The Risk Assessment and Action Plan is a framework for assessing risks and framing actions that reduce identified risks. It will be revised continuously in response to new information.

The **Social Distancing and Infection Control Policy** has also been revised to support the implementation of this action plan and this is further supplemented by revised procedures and protocols (as referenced in this document) to provide the detail that is needed for consistent and effective action in important areas.

The document is circulated and published on our website as a working document. Consultation is viewed as a continuous process of communication, review and adjustment. An up-to-date version will always be available on the school website.

What is COVID-19 and how does it spread?

COVID-19 is an infectious disease caused by a newly discovered coronavirus. Most people infected with COVID-19 will experience mild to moderate respiratory illness and recover, without needing special treatment. Older people, and those with underlying medical conditions, like cardiovascular disease, diabetes, chronic respiratory disease and cancer are more likely to develop serious illness.

The virus spreads primarily through droplets of saliva or discharge from the nose when an infected person coughs or sneezes. It can be transferred to the hands and, from there, to surfaces. The virus can survive on surfaces for a period of time after transfer and this longevity depends on a range of factors, such as surface type and temperature. The most important symptoms of coronavirus (COVID-19) are recent onset of any of the following:

- a new continuous cough, meaning coughing a lot for more than an hour or experiencing three or more episodes of coughing in a day
- a high temperature
- a loss of, or change in, your normal sense of taste or smell

Risk management - Descriptors for degree of risk related to COVID-19 on site transmission

As a result of being in the school setting:

VERY HIGH (VH)

- It is more likely than not that a given individual will contract COVID-19 (with or without symptoms) and then may then transmit the virus to others; AND/OR
- There is a moderate chance that a given individual may become seriously unwell, having contracted COVID-19; AND/OR
- There is a small chance that a given individual may become critically ill, having contracted COVID-19

HIGH (H)

- There is a moderate chance that a given individual will contract COVID-19 (with or without symptoms) and then may transmit the virus to others:
AND/OR
- There is a small chance that a given individual may become seriously unwell, having contracted COVID-19; AND/OR
- There is a very small chance that a given individual may become critically ill, having contracted COVID-19

MODERATE (M)

- There is a small chance that a given individual will contract COVID-19 (with or without symptoms) and then transmit the virus to others; AND/OR
- There is a very small chance that a given individual may become seriously unwell, having contracted COVID-19; AND/OR
- There is at least a moderate chance that, for a given individual, as a result of their attendance, there will be other adverse indirect significant ill-effects on their health

LOW (L)

- There is a very small chance that a given individual will contract COVID-19 (with or without symptoms) and then transmit the virus to others
- There is a small chance that, for a given individual, as a result of their attendance, there will be other adverse indirect significant ill-effects on their health

VERY LOW (VL)

- There is an extremely small chance that a given individual will contract COVID-19 (with or without symptoms) and then transmit the virus to others
- There is a very small chance that, for a given individual, as a result of their attendance, there will be other adverse indirect significant ill-effects on their health

Where there is no risk of a given individual contracting the virus in the school setting because they are not coming onto the school site, this is described as:

NO RISK (N)

			<p>can be booked through NHS 'Test and Trace' website (111 Coronavirus service), or by calling NHS 119.]</p> <ul style="list-style-type: none"> • Ensure that students and staff know that, if they test negative, they should get back to school/work as soon as possible. • Ensure that students and staff know that, if they test positive, they should follow the PHE stay at home guidance for households with possible or confirmed coronavirus (COVID-19) infection and engage with Test and Trace. <p>https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection</p>	<p>SJ / NM / SM</p> <p>SJ / NM / SM</p>
		<p>Minimise contact with people, where possible, due to the uncertainty of who may be carrying the virus)</p>	<p>ALL:</p> <ul style="list-style-type: none"> • Ensure that the Social Distancing and Infection Control Policy is followed. • Install protective screens around the Reception desk, First Aid station and the Library desk. <p>PARENTS:</p> <ul style="list-style-type: none"> • Tell parents that, if their child needs to be accompanied to / escorted from school, then they may come onto the school site by car, but they must stay in their car. Parents must not walk onto the school site or get out of their cars, other than by arrangement. Students must not generally come onto site any earlier than ten minutes before the start of the school day (for their start time). <p>STAFF:</p> <ul style="list-style-type: none"> • Where possible, ensure that, when face-to-face meetings take place, social distancing is observed. • Visually reinforce key control measures through desk posters and desktop 'pop-ups' 	<p>NM / SLT / All SM / Site Team</p> <p>SJ / NM / SM</p> <p>NM / SJ / SM SM</p>

		<ul style="list-style-type: none"> Promote the vaccination programme and the need to continue to adhere to all control measures following vaccination – through posters in work areas, toilets etc. <p>VISITORS:</p> <ul style="list-style-type: none"> Review access points and protection in relation to visitors. Arrange visiting times for contractors in such a way that few are on site at any one time. Where possible, organise visits from visitors/contractors outside the normal school day. Ensure that all visitors receive COVID-19 H&S guidance and protocols on entry. [Where possible, provide H&S information in advance and check/reinforce on arrival]. Clean the entrance foyer area (especially door handles) regularly (consistent with the Site Cleaning Schedule (COVID-19) and COVID-19: cleaning in non-healthcare settings). Complete a Health Declaration Check (verbally) with each authorised visitor, as a condition to entrance into the school building. For any visitors working closely with students (e.g. specialist support agencies for SEND students), as agreed and risk assessed, have PPE available (in addition to social distancing measures), as appropriate. Ensure that the protocol detailed in Social Distancing and Infection Control Policy is followed. 	<p>NM / SM</p> <p>SM</p> <p>SM</p> <p>SM</p> <p>SM</p>
	<p>Minimise contact / mixing by keeping students in separate 'year group bubbles' in busy areas / at busy times of the day.</p>	<p>STUDENTS and STAFF:</p> <p>[In the event of an outbreak, the school may consider the reintroduction of 'bubble year groups' and control measures used earlier in the COVID-19 pandemic. Any decision to reintroduce 'bubbles' will not be taken lightly</p>	

			<p>and would take account of any detrimental impact on the delivery of education.]</p> <p>Although 'bubbles' are no longer required, the school will continue with some of the measures that were previously introduced (to support social distancing and infection control). These include:</p> <ul style="list-style-type: none"> • Stagger break and lunch periods • Implement supervised designated break and lunch 'zones' for different year groups • Line students up, in tutor groups, and control entry back into the corridors at the end of break and lunch periods • When weather is poor during break or lunch, direct students back into their classroom base– with duty staff and senior staff providing supervision. • Ensure that students take any food purchased to their dedicated area. Hygiene provisions will be in place for use of the biometric system and hand sanitizer stations will be positioned in these areas.] 	<p>NM NM NM / JC</p> <p>SLT</p> <p>NM / SLT</p> <p>SLT</p> <p>SLT</p>
		Minimise contact / mixing through classroom arrangements	<ul style="list-style-type: none"> • Ensure that classrooms have desks organised such that students are not facing each other) and with a clearly marked 'teacher zone' at the front of the room. • Remove any unnecessary items (particularly soft furnishings) from classrooms, where there is space to store them elsewhere. <p>TEACHERS / COVER SUPERVISORS:</p> <ul style="list-style-type: none"> • Ensure that staff bring the group into the room without delay (in order to avoid corridor congestion) • Ensure an orderly entrance and exit • Establish how TAs will work with the students they support. As required, provide TA support in a hub area / in alternative room (again, with social distancing). 	<p>SLT</p> <p>SM / Site Team</p> <p>SLT</p> <p>SLT NM / JH</p> <p>NM / JH</p>

			<ul style="list-style-type: none"> For students with EHCPs, use the Staffs CC EHCP Risk Mitigation (COVID-19) Form to plan, and implement, measures that allow students (as appropriate) to attend school safely. 	
		Minimise contact / mixing through changes to circulation around the site and use of site facilities.	<p>ALL:</p> <ul style="list-style-type: none"> Ensure that all site users adhere to the Social Distancing and Infection Control Policy, reinforcing this through supervision, signage/posters and frequent verbal reminders. Policy to include: Ensure use of the one-way system, and other arrangements that keep groups of students apart, taking into account safety on staircases. Use lesson changeover bells at times when both students and staff will be moving (at 8.50 am, 11.10 am and 1.50 pm). <p>STUDENTS WITH SEND:</p> <ul style="list-style-type: none"> Establish and address the specific needs of students/staff with disabilities, including how they will move around the site safely under new arrangements. See Social Distancing and Infection Control Policy for more detail. Avoid the use of the lift, where possible, and make arrangements (through individual risk assessments) that will not disadvantage any potential users (including using lifts, where necessary). 	<p>NM / LW / SLT / All</p> <p>JC / NM</p> <p>SM</p> <p>JC / NM / JH / SM</p> <p>SM / JH</p>
		Minimise contact / mixing by altering staff work / relaxation areas (and arrangements for their use)	<p>STAFF:</p> <ul style="list-style-type: none"> Ensure that staff working/break areas are arranged to support social distancing and are well-ventilated. 	NM / SM

	<p>Promote, and engage in, asymptomatic testing, using Lateral Flow Devices (LFD).</p> <p>[Rapid testing is a vital part of the plan to suppress the virus. The lateral flow devices used have received regulatory approval from the MHRA for self-use. For secondary schools, the approach is a home testing model. Home test kits will be available for all staff and students on return. Once students have been tested twice at school, they will be provided with home test kits for regular testing. Testing remains voluntary, but strongly encouraged. Individuals with a positive LFD test result will need to self-isolate, in line with the guidance for households with possible coronavirus infection, and get a free PCR test to check whether, or not, they have COVID-19. Those with a negative LFD test</p>	<p>STUDENTS, STAFF and OTHERS (invited):</p> <p>LFDs support the return to face-to-face education by helping to identify people who are infectious, but do not have any coronavirus (COVID-19) symptoms.</p> <ul style="list-style-type: none"> • Ensure that the Asymptomatic Testing Site (ATS) is set up, and maintained, to satisfy published requirements and ensure that there is a good stock of tests. • Ensure that staff and volunteers are trained, understand their roles and are issued with full PPE. • Ensure that students who are on site are invited to be tested twice, in accordance with the published schedule, at intervals of three to five days. • Gain consent (testing is voluntary). • Put in place clear protocols for safe and secure testing arrangements, as part of a specific 'Lateral Flow Testing Risk Assessment'. Where consent is provided, ask students to self-swab at the ATS. After 30 minutes, they should be informed of their results. Parents/carers will only be notified of a positive result. • Retain a small ATS on-site, so that testing can be offered to students who are unable, or unwilling, to test themselves at home. • Encourage staff who are coming onto the school site to do home testing twice each week. Sunday and Wednesday will be designated staff home testing days. • Ensure that students (and their parents/carers) and staff understand how they will be supplied with LFD test kits (when this information becomes available) to test themselves at home. Sunday and Wednesday will be designated student home testing days. • Communicate/reinforce the expectation that they must report their result to NHS 'Test and Trace', as soon 	<p>SM</p> <p>SM</p> <p>NM / SM</p> <p>SM</p> <p>SM</p> <p>SM</p> <p>NM / SM</p> <p>NM / SM</p> <p>NM / SM</p>
--	--	---	---

	<p>result can continue to attend school unless they have individually been advised otherwise by NHS Test and Trace or Public Health professionals (for example as a close contact).</p> <p>[Note that guidance states that individuals are exempt from testing, by both PCR and LFD, within 90 days of a positive PCR test, unless they develop new symptoms]</p>	<p>as the test is completed (online or by phone, as explained in the home test kit).</p> <ul style="list-style-type: none"> • Ensure that students (and their parents/carers) and staff understand that they must also share their home test result, whether void, positive or negative, with the school. Positive results should be reported to covid@chaseterraceacademy.co.uk <p>[Students aged 18 and over should self-test and report the result, with assistance if needed. Adolescents aged 12 to 17 should self-test and report with adult supervision. The adult may conduct the test if necessary. Children aged 11, attending a secondary school, should be tested by an adult]</p> <ul style="list-style-type: none"> • Ensure that staff and students (and their parents/carers) understand that, with a positive LFD test result, they will need to self-isolate in line with the stay-at-home guidance and get a free PCR test to check whether, or not, they have COVID-19. Those with a negative LFD test result can continue to attend school and use protective measures. Positive results should be reported to covid@chaseterraceacademy.co.uk • Ensure that staff and students (and their parents/carers) understand that they should not participate in LFD home testing for a period of 90 days following a positive PCR result. 	<p>NM / SM</p> <p>NM / SM</p> <p>NM / SJ</p>
	<p>Clean hands more regularly and thoroughly (for 20 seconds, with running water, or with alcohol-based sanitiser)</p>	<p>ALL:</p> <ul style="list-style-type: none"> • As defined in the Social Distancing and Infection Control Policy, ensure that hand sanitisers are available at each entrance/exit used (several access points will be used for students), with supervision. <p>STUDENTS AND STAFF:</p>	<p>SM / SLT</p>

			<ul style="list-style-type: none"> • Ensure that students and staff use hand sanitisers in the classroom, before each lesson • Remind students (verbally and through posters) to wash hands thoroughly (including after they have used the toilet) and to avoid touching their mouth, nose or eyes. • Provide water fountains to enable students to fill up water bottles (so that these can be used instead of taps/sinks) • Communicate expectations clearly to staff and students (including through visual reminders – posters and rolling TV monitor displays) and monitor compliance. <p>STAFF:</p> <ul style="list-style-type: none"> • Ensure that hand sanitisers are available in the reception areas, in office spaces, and in other communal working areas. <p>SITE TEAM:</p> <ul style="list-style-type: none"> • Follow the Site Maintenance Checklist (COVID-19), to include: <ul style="list-style-type: none"> - Ensure that all hand sanitisers are risk assessed – using COSHH guidance. - Ensure that hand basins are in good condition, easily accessible for all users and only used for hand washing. - Ensure that soap wall-mounted soap dispensers are clean, fully functional and regularly re-stocked. Remove all bar soap. Ensure that hot water is available. Make regular checks (defined in Checklist). <p>FIRST AID TEAM:</p> <ul style="list-style-type: none"> • In addition to using PPE correctly, wash/sanitise hands before and after treating a casualty. 	<p>SLT</p> <p>SLT</p> <p>SM</p> <p>SLT</p> <p>SM</p> <p>SM / Site Team</p> <p>SM / First Aiders</p>
--	--	--	--	---

	<p>Ensure good respiratory hygiene through 'Catch It, Bin It, Kill It'.</p>	<p>ALL:</p> <ul style="list-style-type: none"> • Communicate expectations clearly to staff, students and other site users (through Social Distancing and Infection Control Policy) and monitor compliance. Use posters and rolling digital displays to reinforce key messages. • Ensure that staff know who to contact for immediate action (and how to do this) in any eventuality where resources for hygiene are not satisfactorily in place in classrooms. <p>SITE TEAM:</p> <ul style="list-style-type: none"> • Follow the Site Maintenance Checklist (COVID-19), to include: <ul style="list-style-type: none"> - Provide foot-operated pedal bins in each classroom and in other key locations around the site, ensuring that they are emptied whenever they are half full (regular checks will be made by the site team). - Ensure that there is always a good supply of tissues in classrooms - Provide disinfectant wipes/spray in each classroom (in case someone sneezes on a piece of equipment). [Note: This will enable staff to sanitise as they see fit during the school day, although there is no expectation that non-cleaning staff are expected to undertake cleaning work]. 	<p>SLT</p> <p>NM / SM</p> <p>SM / Site Team</p>
	<p>Clean frequently touched surfaces often using standard products, e.g. detergents, bleach</p>	<p>CLEANING STAFF:</p> <ul style="list-style-type: none"> • Practice must be consistent with the Site Cleaning Schedule (COVID-19) and COVID-19: cleaning in non-healthcare settings, to include: • Ensure that all cleaning substances are risk assessed – following COSHH guidance. 	<p>SM / Cleaning Staff</p> <p>SM / Cleaning Staff</p>

			<ul style="list-style-type: none"> Monitor compliance / standards. <p>STAFF:</p> <ul style="list-style-type: none"> Approved cleaning products will be provided in classrooms, library, office spaces, reception desk and first aid bay. These areas will be cleaned by the cleaning contractors, taking into account high incidence touch surfaces and multiple users, and consistent with the Site Cleaning Schedule (COVID-19) and COVID-19: cleaning in non-healthcare settings. These provisions will also allow colleagues to be responsive and to take further measures, as they wish. Ensure that any waste from the lateral flow testing centre is disposed of carefully (as general waste, in accordance with guidelines). 	SM / SLT SM / Cleaning Staff SM / Cleaning Staff
		<p>Keep occupied spaces well ventilated. [To increase ventilation while maintaining a comfortable temperature, consider:</p> <ul style="list-style-type: none"> - opening high level windows - increasing ventilation when rooms are unoccupied - allowing extra clothing to be worn - rearranging furniture to avoid direct draughts. <p>Use heating, as necessary, to maintain comfort.]</p>	<ul style="list-style-type: none"> Ensure that, in communal areas, doors are propped open (bearing in mind fire safety and safeguarding issues). Risk assess, where this could create additional risks. [Air conditioning can be used in rooms that have it, as long as the 'fresh air' setting is used.] Maximise ventilation by opening windows in communal areas (including classrooms in use and shared offices (where used)). [Some judgement can be exercised in how wide to open a window in a given situation. Where opening windows results in an uncomfortably cold working environment, coats can be worn and/or other sources of heating can be used. In more extreme circumstances, alternative solutions will need to be found.] Ensure adequate ventilation in toilet areas. 	SLT SLT / SM SM

	Establish and agree PPE requirements and usage	<p>FIRST AID TEAM:</p> <ul style="list-style-type: none"> Review medical care plans and put PPE provision in place (with training). Ensure that the Social Distancing and Infection Control Policy and Government advice is followed carefully. Provide training for first aid staff. Agree other uses of PPE with staff, as required, in line with individual risk assessments, ensuring that staff know how to use PPE equipment safely and correctly 	<p>SM / First Aiders</p> <p>SM NM / SM</p>
	Ensure that students are very clear on expected behaviour in relation to Covid-19 arrangements and that staff apply protocols and procedures consistently.	<p>STAFF AND STUDENTS:</p> <ul style="list-style-type: none"> Ensure that students understand that they must not touch staff and, where possible, should keep their distance. Ensure that approaches to managing students' behavior are compassionate and proportionate, protecting health and safety for all, whilst also supporting students who may exhibit problematic behaviours as a response to trauma related to the pandemic. <p>SEND:</p> <ul style="list-style-type: none"> Consider carefully the specific needs of students with SEND (and other students who will need emotional support) and put procedures in place to manage their specific needs, keeping everyone safe. Use the Staffs CC EHCP Risk Mitigation (COVID-19) Form as a planning aid. 	<p>DT / NM / SJ / SLT</p> <p>DT / NM / SLT / All</p> <p>JH / NM / SLT</p>
	Control the use of shared school resources.	<p>STAFF AND STUDENTS:</p> <ul style="list-style-type: none"> Ensure that students and staff use their own pens, pencils and other regularly used equipment Where classroom-based resources are used, ensure that they are cleaned regularly. 	<p>SLT / Teachers SLT / Teachers</p>

				<ul style="list-style-type: none"> Although students and teachers can take books home, unnecessary sharing should be avoided and hands should be cleaned thoroughly. 	SLT / Teachers
		Ensure that students (and especially vulnerable students) are well supported (when in school and when working remotely).		<ul style="list-style-type: none"> Adapt the school's Relationships, Sex and Health Education (RSHE) programme to give timely coverage of issues relating to mental health and wellbeing. Also, adapt to ensure that sensitive issues that are less suitable for remote learning are rescheduled. Ensure that relevant staff keep in regular contact with students (and especially vulnerable students) to support emotional and mental health and social engagement. This includes regular welfare calls and tutorial sessions. <p>SEND:</p> <ul style="list-style-type: none"> Revise Risk assessments for students with EHCPs. Continue to plan and implement interventions, putting specific risk assessments in place, where specialist staff need to come onto site. <p>STUDENTS WITH MEDICAL CONDITIONS:</p> <ul style="list-style-type: none"> Work with local authority staff, health professionals and other services to ensure that students with medical conditions are fully supported. 	<p>NM / DT / MB</p> <p>NM / DT / JH</p> <p>JH / NM</p> <p>DT / JH</p>
Non- clinically vulnerable students and staff: Direct or indirect transmission on transport provided by the school	L	Take proportionate, preventative measures.	VL	<p>STUDENTS;</p> <ul style="list-style-type: none"> Encourage young people to walk or cycle to school, wherever possible. <p>DRIVERS:</p> <ul style="list-style-type: none"> Follow the Transport to and from School Risk Assessment (COVID-19), to include: <ul style="list-style-type: none"> Drivers are only deployed when they are free of symptoms and where members of their household are free of symptoms, 	<p>NM / SLT</p> <p>SM / SJ / Travel Providers</p>

				<ul style="list-style-type: none"> - Specific hygiene measures are taken for cleaning vehicles thoroughly in between trips - Students queue and board in an orderly manner. - Students use hand sanitiser on boarding. - Students and drivers wear face masks throughout the duration of any journey. 	
Non- clinically vulnerable students and staff: Specific risk of direct transmission where someone becomes unwell (exhibiting COVID-19 symptoms) at school	L	<p>Supervise separate to the rest of the school population, trying to maintain a distance of 2 m. Where this is not possible, the supervising adult should wear a fluid-resistant face mask (with eye protection, where appropriate). For students, contact parents to collect from school.</p> <p>[Anyone sent home, due to the onset of COVID-19 symptoms, must self-isolate for that day and the next full 10 days and should arrange to have a test (but not visit their GP / hospital). Other members of their household should self-isolate - for the day when the person developed symptoms, plus 10 full days, or from the</p>	VL	<p>STAFF/STUDENTS: [Staff who have helped someone with symptoms, and students who have been in close contact with them, do not need to go home to self-isolate, unless they themselves develop symptoms (in which case, they should arrange a test), or if the symptomatic person subsequently tests positive, or they have been requested to do so through 'Test and Trace'.]</p> <ul style="list-style-type: none"> • Everyone who has been in contact with someone who has been unwell, with COVID-19 symptoms, should wash their hands thoroughly (for 20 seconds) with soap and running water, or use hand sanitiser. <p>STAFF:</p> <ul style="list-style-type: none"> • Follow the Social Distancing and Infection Control Policy, bringing the situation to the attention of a member of SLT. • A specific room is allocated for the purpose of caring for a student who is waiting to be collected – with door closed / adequate ventilation / appropriate supervision. <p>FIRST AID STAFF:</p> <ul style="list-style-type: none"> • Procure PPE from local supply chains. • Follow Social Distancing and Infection Control Policy and government guidance regarding use of PPE, including: <ul style="list-style-type: none"> - In any situation where a 2 m. distance cannot be maintained, ensure that first aid staff wear 	<p>SM / First Aiders</p> <p>SJ / NM / SLT</p> <p>SM</p> <p>SM SM / First Aiders / Site Team</p>

		<p>person's positive test date, plus 10 full days. Anyone testing positive, whilst not symptomatic, who develops symptoms during an isolation period, must restart the 10-day isolation period. Staff and students who have been in close contact with someone with COVID-19 symptoms do not need to go home to self-isolate unless: the symptomatic person tests positive; they become symptomatic themselves; or 'Test and Trace' ask them to do so</p>		<p>disposable gloves, apron, disposable surgical mask and eye protection. Hands are washed thoroughly after any contact. Used PPE equipment is stored for 72 hours before disposal.</p> <ul style="list-style-type: none"> - Separate toilet used, where required. Locked immediately after use and subsequently cleaned thoroughly before further use. - Waiting area also cleaned thoroughly immediately after use. - Call 999 for emergencies. - Ensure that, when parents/carers collect their child from school in these circumstances, the student is escorted, by first aider, to their car, or to an agreed place outside the school buildings. - With parents' permission, students may walk or cycle home, maintaining social distancing. They should not use public transport. - Ensure that all surfaces, with which the person has made contact, are cleaned and disinfected. - 	
<p>Specific risk that a CEV young person, , contracts the virus, putting them at high risk of severe illness</p>	L	<p>All 16-18 year olds with underlying health conditions that put them at higher risk of serious disease and mortality were offered a vaccine in priority group 6 of the vaccination programme. They are no longer required to shield.</p>	VL	<p>STUDENTS AND THEIR PARENTS/CARERS:</p> <ul style="list-style-type: none"> • Ensure that there is effective communication between school and home, in order to ensure that the young person is well supported with their learning and mental/emotional needs. • Where students have an EHCP, review their individual risk assessment. 	<p>NM / DT / JH / SJ</p> <p>NM / DT / JH / SJ</p>

<p>Specific risk that a young person, classed as 'clinically vulnerable' (pre-existing medical conditions), contracts the virus, putting them at a higher than usual risk of severe illness</p>	<p>M</p>	<p>The student attends school. [Some students, parents and households may be anxious about attendance at school. This includes students who have themselves been shielding previously, but have been advised that they no longer need to shield, and those who are concerned about the possible increased risks from coronavirus (COVID19) for those who have certain conditions such as obesity and diabetes. Students of compulsory school age must be in school unless a statutory reason applies.]</p>	<p>L</p>	<p>STUDENTS / PARENTS:</p> <ul style="list-style-type: none"> • Discuss any concerns with parents and provide reassurance on the measures the school has put in place to reduce any risks. Make adjustments, where practicable/reasonable. Remind parents/carers that students of compulsory school age must be in school unless a statutory reason applies. • Where students have an EHCP, review their individual risk assessment. 	<p>NM / DT / JH / SJ</p> <p>JH</p>
<p>Specific risk that a CEV member of staff contracts the virus, putting them at high risk of severe illness.</p>	<p>H</p>	<p>CEV people are no longer advised to shield but may wish to take extra precautions to protect themselves, and to follow the practical steps set out in the CEV guidance to minimise the</p>	<p>N</p>	<p>STAFF:</p> <ul style="list-style-type: none"> • Staff who are identified as clinically extremely vulnerable should follow the published guidance and attend work. Risk management – descriptors for other associated risks

As a result of the school's partial closure (taking into account both impact and likelihood):

VERY HIGH (VH) - There are very serious risks to the health and welfare of members of the school community

HIGH (H) - There are serious risks to the health and welfare of members of the school community

MODERATE (M) - There are moderate risks to the health and welfare of the school community

LOW (L) - The risk to the health and wellbeing of the school community is low

VERY LOW (VL) - The risk to the health and wellbeing of the school community is very low

What to do if someone becomes unwell (with COVID-19 symptoms) at school

If someone becomes unwell on site, with a new, continuous cough, a high temperature or a lack of smell-taste:

- They are sent home (by a senior member of staff). Where this is a student, parents are contacted. They should not use public transport.
- Where a student needs to be collected, they are moved to a dedicated room, where they can be isolated – behind a closed door, with ventilation. (If it is not possible to isolate them, they need to be moved to an area that is at least 2 m. away from other people).
- If they need the toilet, they will use a separate toilet, which should then be locked and subsequently deep-cleaned before further use.

In the case of an emergency (seriously ill or injured), call 999.

Where a member of staff has helped someone who was unwell with COVID-19 symptoms, they do not need to go home themselves unless they also develop the symptoms, or if they are identified as a close contact (in which case a PCR test should be arranged). They should wash their hands thoroughly for 20 seconds. The area where the person has been should be cleaned with disinfectant.

What happens next when there is a suspected case (or a confirmed case) of COVID-19 in the school setting, and when is it necessary to self-isolate and/or get a test?

Anyone with symptoms will be sent home and asked to self-isolate and arrange a PCR test. Their fellow household members should also self-isolate for this period of time, unless they are not required to self-isolate, where any of the following apply:

- they are fully vaccinated – this means 14 days have passed since their final dose of a COVID-19 vaccine given by the NHS;
- they are under 18 years, 6 months old;
- they are taking part in a COVID-19 vaccine trial;
- they are not able to get vaccinated for medical reasons.

Anyone self-isolating should follow the following public health advice on when to self-isolate and what to do:

<https://www.nhs.uk/conditions/coronavirus-covid-19/self-isolation-and-treatment/when-to-self-isolate-and-what-to-do/>

Tests can be booked through the NHS 'Test and Trace' website (111 Coronavirus service), or by calling NHS 119. Students and staff who test negative should get back to school/work as soon as possible.

Students and staff, who test positive, should follow the PHE stay at home guidance for households with possible or confirmed coronavirus (COVID-19) infection and engage with Test and Trace. <https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

Parents/carers and staff should understand that, were they to test positive or were otherwise asked by the NHS 'Test and Trace' team, they would need to be ready to provide details of anyone with whom they have been in close contact. The NHS COVID-19 app is available to anyone aged 16 and over to download if they choose. For some young people, particularly some with SEND, parents will need to decide whether their use of the app is appropriate. This will mean that some students in year 11, and most students in years 12 and above will be eligible to use the app and benefit from its features. Staff members are also encouraged use the app. The document '[Use of the NHS COVID-19 app in education and childcare settings](#)' provides information about how the app works and guidance for its use within schools in England.

It is vital that parents/carers inform the school of the results of a COVID-19 test via the designated email address: covid@chaseterraceacademy.co.uk

Where the student, or member of staff, tests negative, if they feel well and no longer have coronavirus symptoms, they can return to school and the members of their household can end the self-isolation.

Where the student, or member of staff, tests positive, they should follow [PHE, 18 Dec. '20: COVID-19: guidance for households with possible coronavirus infection](#) and continue to self-isolate for a full 10 days following the day when their symptoms started. They should then only return to school if they do not have symptoms (other than a cough or loss of smell/taste).

As soon as the school becomes aware that someone who has attended the setting has tested positive for COVID-19, contact will also be made with the [Local Outbreak Control \(LOC\) Team](#). [The health protection team will also contact the school directly if they become aware that someone who has tested positive has attended the school – as identified by NHS 'Test and Trace'].

From Stage 4 (19 June '21), education settings are no longer expected to undertake contact tracing. Contacts from a school setting will only be traced by NHS 'Test and Trace', where the positive case specifically identifies the individual as being a close contact. This is likely to be a small number of individuals who would be most at risk of contracting COVID-19 due to the nature of the close contact.

From 16 August '21, children under the age of 18 years old will no longer be required to self-isolate if they are contacted by NHS Test and Trace as a close contact of a positive case. Instead, children will be contacted by NHS 'Test and Trace', informed that they have been in close contact with a positive case and advised to take a PCR test. All individuals are encouraged to take a PCR test if advised to do so.

If there is an outbreak in the school, a director of public health might advise that face coverings are temporarily worn in communal areas or classrooms (by students, staff and visitors, unless exempt).

Under what circumstances would the school consider taking additional actions (consistent with the Contingency Framework)?

For school settings, it makes sense to think about taking extra action if the number of positive cases substantially increases. This is because it could indicate transmission is happening in the setting.

Public health advice will be sought whenever five students or staff, who are likely to have mixed closely, test positive for COVID-19 within a 10-day period. The guidance clarifies that a group rarely means a whole setting or year group. For schools, close mixing could include: form group or subject class; a friendship group mixing at breaktimes; a sports team; or a group in an after-school activity

The school would also seek public health advice if a student or staff member was admitted to hospital with COVID-19. [This can be done by phoning the DfE helpline (0800 046 8687, option 1), or in line with other local arrangements]. Hospitalisation could indicate increased severity of illness, or a new variant of concern.

In line with the advice received, in the event of an outbreak, the school will introduce extra measures that may include: more frequent testing; reinstating on-site rapid LFD testing; the use of face coverings on site; restriction to parental/visitor site attendance (e.g. open days, public events); and restrictions on students' attendance. Other measures to consider, in these circumstances, are: whether any activities could take place outdoors; ways to improve ventilation indoors (where this would not significantly impact thermal comfort); and one-off enhanced cleaning, focussing on touch points and any shared equipment.

What should someone do if they are concerned that there are shortcomings in the arrangements or where they believe that the systems in place are not functioning as intended?

Anyone with concerns about the arrangements themselves should contact the Executive Headteacher, Stuart Jones: stuart.jones@stephensuttonmat.co.uk / 07889-650665.

Where there are concerns that the systems in place are not functioning as intended, please contact the Head of School, Nicola Mason: n.mason@chaseterraceacademy.staffs.sch.uk / 07889-650663 and copy in Stuart Jones (as above).
