

Curriculum Intent Statement for **MFL (German)**

At Chase Terrace Academy we aspire for all of our students to achieve greater things than they ever thought possible.

We pride ourselves on being a warm and welcoming school that places community at the heart of everything we do. Our ambitious curriculum is enriching and inclusive, providing challenge and breadth for all. This empowers our students to become compassionate, confident and creative individuals who are resilient, respectful and equipped with a desire to take up a fulfilling role in society and the wider world.

*“Without language one cannot talk to people and understand them; one cannot share their hopes and aspirations, grasp their history, appreciate their poetry or savour their songs,” Nelson Mandela*

Knowledge in languages allows students to view their world from a different viewpoint and embrace the fact that the world is a rich and diverse place. It also gives them the chance to understand the patterns that underpin languages thus gaining a more powerful insight into their own language as well as the one they are learning. We want our students to develop a lifelong love of languages and ultimately to consider themselves as ‘world citizens’ who belong in a multicultural, mutually respectful world.

### Curriculum Implementation Plan
