

Home Learning

You will be provided with Knowledge Organisers for all of your subjects at the start of each topic.

Your home learning will be **at least 15 minutes each evening** learning a section of these knowledge organisers, as laid out in the table below, guided by your teacher.

In addition, you will need to read for 25 minutes each evening and complete additional Maths practice.

You must record the work that you have done in your Home Learning exercise book and this will be checked each morning by your form tutor.

Day	Subject	Day	Subject
Monday 1	Computer Science	Monday 2	Technology/Art
Tuesday 1	Science	Tuesday 2	Geography
Wednesday 1	French/German	Wednesday 2	Science
Thursday 1	History	Thursday 2	RE
Friday 1	English	Friday 2	Maths

Examples of what you may be asked to do:

- Copy the section of the knowledge organiser out and highlight key words
- Get someone at home to test you on how much you can remember and write a comment in your book
- Turn some bullet points into a paragraph
- Read the section 3 times and then cover it up and write out in your book as much as you can recall – correct what you have missed

If you do not complete your home learning or do not bring your home learning book to school then you will have a break detention that day to complete the missing work with your form tutor.

3 failures in a week will result in an after school detention.

The 'Know, Do, Review' Cycle

At CTA, teaching and learning follows the 'Know, Do Review' cycle. Teachers share essential core knowledge with students prior to the lesson, providing a 'big picture' overview and the foundation for challenging activities. Sharing this key knowledge also allows enables parents to play a role in supporting their son/daughter with their learning.
