

March 2023

Dear Parent(s)/Carer(s),

As we approach the summer examinations, staff are continuing to do all they can to support students in making final preparations.

Some subjects are offering revision and/or booster sessions during the Easter holiday. Please find attached a schedule which provides further information on those subjects where sessions are running.

If students wish to attend, they should arrive at reception at the time specified, sign in and go directly to the appropriate classroom. If any sessions run over the lunch period, students should bring a packed lunch as there will be no catering facilities available.

Once the session students are attending has finished, they should sign out and leave the site immediately. Some construction work is taking place on the science corridor and in the pizza hub during the Easter holiday, so no sessions will take place in these areas and they will be completely out of bounds for students.

After school sessions will continue to run after the Easter break and students will of course be set targeted revision work through their lessons in the run up to the final examinations.

Yours faithfully

**Mr J. Cain**  
**Deputy Headteacher**

Easter Holiday Revision/Booster Sessions Timetable

The following sessions will take place during the Easter holidays in order to support students in preparing for their final examinations and/or completion of controlled assessment portfolios. Students must only be in the building at the times specified, must sign in and out and should be under the supervision of subject staff at all times.

Please note that the science corridor, pizza hub and old music corridor will be completely out of bounds due to works taking place during the Easter break. Any sessions for tech should be accessed via the gate at the back of the main car park (where the tech field is).
