ASSESSMENTS FOR 2024/25

Week	Assessment	Content
11 Nov (approx.)	Autumn Mock	Full GCSE Mock – three 1h30m papers (two calculator, one non-calculator)
24 Feb (approx.)	Spring Mock	Full GCSE Mock – three 1h30m papers (two calculator, one non-calculator)

Your teacher will let you know dates of additional knowledge tests, unit quizzes, etc.

LITERACY IN MATHS

It is important to be confident with the meaning of mathematical language.

Your teacher will explain the definitions of key mathematical words.
You will be asked to write these down in your exercise book.

Your Knowledge Organiser / Literacy Guide is later in this booklet.
It explains the meanings of many key words in Maths.
You can look these up at any time.

You can also access this from home: look on the school website under 'Curriculum'.

You will have regular knowledge tests during the year. These will include testing your understanding of mathematical language. Online quizzes will help you to prepare for these. Starter tasks and assessment questions will also help you develop maths literacy.

SPARX MATHS

You will have regular homework on Sparx Maths (sparxmaths.uk). This will help you master the skills that you have learned in class. If you are asked to log in, use your full school email address (including @chaseterraceacademy.co.uk) and your normal computer password.
